OBJECTIVE

Aspiring software engineer with a keen interest in web development and software design. I'm highly motivated to combine my skills with the opportunity to learn and expand my experience while collaborating with diverse teams and delivering impactful projects.

EDUCATION

Bachelor of Science in Computer Science

California State University Bakersfield

December 2024

- **Relevant Courses:** Software Engineering, Computer Networks, Algorithms, Data Structures, Database Programming, Operating Systems, Computer Architecture

PROJECTS

Portfolio: <https://aldrin1237.github.io/portfolio2/>

Informative Webpage (Game of Thrones)

- Developed an informative website using HTML, CSS, and JavaScript.
- Used modern asynchronous programming to fetch data from the API.
- Implemented pagination to display characters efficiently with a responsive design.
- Integrated components using JavaScript for dynamic content rendering based on user interactions.
- Crafted a user-friendly interface with a keen focus on responsive design to enhance user experience across devices.

E-commerce Library Webpage

- Designed an intuitive e-commerce platform for users to browse and select books.
- Utilized HTML, CSS, and JavaScript
- Mobile Responsiveness: Ensured the webpage adjusts seamlessly to different screen sizes and resolutions, providing an optimal viewing experience on both mobile and desktop devices.

Luxury Car Sales Webpage

- Developed a comprehensive website selling luxury cars using HTML, CSS, JavaScript, and SQL
- Implemented user-friendly interfaces for effective customer navigation and smooth transactions.
- Collaborated with a team of 3 members to ensure functional backend processed using SQL database integrations.
- Enhanced website responsiveness and ensured cross-browser compatibility.

SKILLS

- **Technical Skills:** HTML, CSS, JavaScript, and C/C++
- **Software & Tools:** Microsoft Excel, Microsoft PowerPoint.
- **Collaboration:** Effective teamwork and interdisciplinary cooperation
- **Systems:** Familiarity with various operating systems, including Microsoft-based products.
- Strong understanding of hardware-software interactions.
- Proficient in analyzing requirements, functional specifications, and design specifications.
